

## Fly-In Breakfast and UAS Update

Unmanned Aircraft Systems (UAS), or as the public is fond of calling them—"drones"—are entering our society with a speed that challenges the FAA. This intrusiveness threatens public sensibilities with technological possibilities that were recently science fiction. The FAA is committed to the safe integration of UAS into the NAS (National Airspace System). The Harrisburg FAASTeam will discuss issues such as present and future UAS technologies, legalities for their use, the process for obtaining waivers for UAS operations, and how to report near-misses and suspected illegal UAS operations. Don't miss this exclusive event. Click on the link below and register TODAY.

**Directions:** The meeting will be held in the Lancaster Airport Passenger Terminal.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
